## **Executive Summary**

Atlantic Environmental Services, Inc. (AES) conducted a Phase I Environmental Site Assessment (ESA) for Berkley Group's proposed construction of a 199-foot monopole tower on a private Elon University road parallel to E. Haggard Avenue, Elon, North Carolina, in Alamance County. The subject is a proposed 100-foot by 100-foot lease area (the Site) for the construction of a wireless telecommunications tower facility. The project also includes an access and utilities maintenance easement from a private Elon University road.

The objective of a Phase I ESA is to identify recognized environmental conditions for a subject site. A recognized environmental condition is defined in ASTM standard E-1527 as "the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of release of any hazardous substances or petroleum products into structures on the property, or into the ground, groundwater, or surface water of the property."

A site visit was conducted on August 22, 2011. The site inspection of the property and surrounding area and the information provided to AES indicated the following:

- The Site is a proposed 100-foot by 100-foot lease area for the construction of a 199-foot monopole communications tower. The tower facility also has a proposed access and utilities maintenance easement from a private Elon University road.
- The Site is located in a wooded area adjacent to recently constructed baseball fields. The area surrounding the Site consists of additional woodlands, university buildings and apartments, and residential use. The parent property is owned by Elon University.
- Water and sewer service are provided at the parent property by Elon Public Works and Utilities. Duke Energy provides electrical service and AT&T provides landline telecommunication service in the area. Natural gas is provided by Piedmont Natural Gas. Topography at the Site slopes to the west toward a tributary to the Haw River.
- AES contacted Mr. Neil Bromilow, Director of the Elon University Construction Department, to obtain further information about the historical use of the Site and parent property. Mr. Bromilow reported no knowledge of

environmental conditions, regulatory actions, or use restrictions for the parent property.

- The surrounding area was found to contain several mapped and unmapped records in the state and federal environmental databases searched per ASTM standards. A location and status assessment of the mapped and unmapped records was conducted and it has been determined that they are not expected to affect the proposed lease.
- This Phase I Environmental Site Assessment was performed in conformance with the scope and limitations of ASTM Practice E 1527 for the subject lease. Any exceptions to, or deletions from, this practice are described in Sections 2.4, 3.5.2 and 3.6. This assessment has revealed no evidence of recognized environmental conditions in connection with the proposed lease.

## **1. Introduction**

Atlantic Environmental Services, Inc. (AES) conducted a Phase I Environmental Site Assessment (ESA) for Berkley Group's proposed construction of a 199-foot monopole tower adjacent to a private Elon University road that is north of and parallel to E. Haggard Avenue in Elon, North Carolina, in Alamance County. The subject is a proposed 100-foot by 100-foot lease area (the Site) for the construction of a wireless telecommunications tower facility. The project also includes an access and utilities maintenance easement from a private Elon University road.

This Phase I ESA was conducted in accordance with the American Society for Testing and Materials (ASTM) standards for environmental site assessments for commercial real estate (E 1527-05). The objective of a Phase I ESA is to identify recognized environmental conditions for a subject site. A recognized environmental condition is defined in ASTM standard E-1527 as "the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of release of any hazardous substances or petroleum products into structures on the property, or into the ground, groundwater, or surface water of the property."

AES conducted a walk-through inspection of the property on August 22, 2011, to evaluate existing site conditions. A search of the United States Environmental Protection Agency (USEPA), North Carolina state regulatory environmental databases, and local databases for the area was conducted by Environmental Data Resources, Inc. (EDR). The following sections discuss our research in detail.

### **Detailed Scope of Services**

This assessment has been conducted in general conformance with ASTM E 1527.

The scope, completed by assembly of this report, consisted of the following.

- 1) Obtain and review federal, state regulatory, and local agency records for the site and immediate surrounding area for inclusion in databases listing known areas of environmental risk and/or contamination.
- 2) Perform a site inspection of accessible areas of the property to determine the presence or likely presence of recognized environmental conditions.

- 3) Review aerial photographs and other historical information for the site from readily available sources in order to evaluate changes in site vegetation, topography, and use.
- 4) Assess adjacent property use by observation from the subject site or from adjacent public roadways and contact local regulatory agencies, fire department, neighbors, and previous owners as may be productive in verifying historical use of the property.
- 5) Review site history of ownership, if provided by the user, to determine past uses that were, as described in E 1527-05, “likely to have involved the use, treatment, storage, disposal, or generation of hazardous substances or petroleum products.”
- 6) Prepare a written report documenting the results of the foregoing evaluations and form an opinion of the presence or likely presence of recognized environmental conditions at the site.
- 7) Services associated with evaluation of site buildings, if any, for asbestos, vapor intrusion, and radon are **excluded** from this scope of services.

#### **Significant Assumptions**

A Phase I ESA per ASTM standards is an assessment that is based on various assumptions. Assumptions are inherently made by the environmental professional in the site inspection, property research, and reporting tasks involved in completing the process.

In the inspection and research phase, the environmental professional has to assume that the conditions observed during the Site inspection are representative of the unaltered condition of the Site. In addition, the professional has to accept as true the information obtained from the past and present owners, regulatory officials, and other historical and publicly available sources.

In assembling all of the data obtained through the Site inspection and research procedures into a report, the professional also has to make assumptions about the extent, or lack of, impact that may have occurred from an apparent release of a petroleum product or hazardous waste. Further, assumptions have to be made concerning subsurface conditions and how the variables of soil characteristics and groundwater hydrology can affect the fate and transport of contaminants.

## **2. Background Information**

### **2.1 Site Location/Land Use**

The proposed Site is located in a wooded area adjacent to recently constructed baseball fields. Areas surrounding the Site consist of other woodlands and university buildings and apartments, and residential use. The Site and parent property are located northeast of Elon, North Carolina.

Land use in this area consists of university buildings and residential use. A vicinity and topographic map for the Site are included in Appendix B.

### **2.2 Environmental Setting**

Data describing the environmental setting of a subject site is used for assessing the potential for migration of contaminants from adjoining properties or from within a parent property. Such data typically includes topographic and geologic sources that can be used to make judgments concerning the transport and fate of contaminants in air, soil, and ground water.

Soils at the Site are classified on the Web Soil Survey as Map Unit: EdC2—Enon fine sandy loam, 6 to 10 percent slopes, eroded (Wynott). These strongly sloping, very deep, well drained soils are found on uplands. They formed in residuum from mafic rock and have a loamy surface layer and clayey subsoil. The permeability is slow and the shrink-swell potential is high. The seasonal high water table is below 6.0 feet. These soils have an acidic reaction with a pH range from 4.5 to 6.5. The risk for corrosion is high for uncoated steel and moderate for concrete.

The Site is in the Burlington, North Carolina, USGS topographic quadrangle. The surface elevation at the Site is approximately 655-feet above mean sea level (msl). Topography at the Site is sloped to the west toward a tributary to The Haw River.

### **2.3 Facility Operations**

The proposed tower facility will operate as an unmanned installation designed to support wireless telephone service equipment.

## **2.4 Historical Overview**

A chain-of-title for the subject property, conforming to ASTM standards, is to be provided by Berkley Group. Title research was therefore not included in the scope of this assessment.

AES contacted Mr. Neil Bromilow of the Elon University Construction Department to obtain further information about the historical use of the Site and parent property. He stated that the parent property has been a wooded area for the last 80-90-years. Mr. Bromilow reported no knowledge of environmental conditions, regulatory actions, or use restrictions for the parent property. Mr. Bromilow also reported no knowledge of aboveground or underground fuel tanks, dumping, burning, or burial of hazardous wastes or petroleum materials on the property. He also stated that there are no environmental liens against the parent property.

AES contacted Captain David Wright of the Elon Fire Department to obtain historical information on fire calls, spills, or HAZMAT responses at or near the Site. Captain Wright reported that he is not aware of any spill or HAZMAT responses to the subject property during his 20-years of service at the department and 35-years in the area. He stated that he has always known the Site to be a wooded area. He also stated that the only environmental condition he was aware of was an UST at the Elon University Frances Building to the southeast of the Site. He reported that this building was previously a ham processing facility and that it had an UST to fuel delivery trucks. He stated that the UST was closed in place.

Sanborn Historical Map research was conducted for the area of the Site, though no map coverage was available.

## **2.5 Review of Aerial Photographs**

Aerial images from 1993, 1999, 2002, 2005, 2006, 2008, 2009, and 2010 provided by Google Earth were reviewed. These images show the area of the proposed tower compound as a wooded area throughout the period. The adjoining areas appear to consist of additional undeveloped woodlands and institutional and residential use of Elon University.

An aerial image from 2006 provided on the Web Soil Survey was also reviewed. This image shows the area of the proposed Site as described above.

### **3. User Provided Information**

#### **3.1 Title Records**

Title records for the subject parcel were not provided by the user for review under the scope of this assessment.

#### **3.2 Environmental Liens or Activity and Use Limitations**

The user or current property owner have provided no knowledge of environmental liens against the property and no activity or use limitations other than local zoning ordinances and building codes.

#### **3.3 Specialized Knowledge**

No specialized information or knowledge has been provided by the user for the subject property.

#### **3.4 Valuation Reduction for Environmental Issues**

A valuation reduction has not been included as part of the scope of this assessment.

#### **3.5 Owner, Property Manager, and Occupant Information**

The subject property is currently owned by Elon University. Mr. Neil Bromilow was interviewed as described in Section 2.4.

#### **3.6 Reason for Performing Phase I**

This Phase I ESA has been performed to identify recognized environmental conditions for the subject site. The user is interested in determining the likelihood of RECs at or near the subject property and assessing the potential to affect a small lease area on the parent property that will be used for a wireless telecommunications tower facility.

#### **3.7 Other**

No other user provided information is noted.

## **4. Site Inspection**

### **4.1 Inspection**

A visual inspection of the Site and surrounding area was made on August 22, 2011. The investigation involved a walk-through of the Site and surrounding area to obtain information on the presence or likely presence of recognized environmental conditions at or near the property.

The site inspection included a walk of the access to the Site across the parent property, as well as a survey of the surrounding properties from public roads.

### **4.2 Utilities**

Water service was not evident in the area of the Site but is provided in the area by Elon Public Works and Utilities. AT&T provides landline telecommunication service and Duke Energy provides electrical service in the area. Piedmont Natural Gas also provides service in the area.

### **4.3 Wastewater and Stormwater**

Sewer service is not in use at the Site but is available to the properties in the area from Elon Public Works and Utilities. Stormwater runoff onto and across the Site is from wooded areas and recently constructed baseball fields and is expected to follow natural drainage patterns to the west toward a tributary to The Haw River.

### **4.4 Petroleum and Chemical Materials**

There was no evidence of any petroleum or chemical materials at the Site.

### **4.5 Solid Waste**

#### **4.5.1 Non-Hazardous Waste**

No non-hazardous waste was observed at, or adjacent to, the Site.

#### 4.5.2 Hazardous Waste

No hazardous waste was observed at, or adjacent to, the Site. Asbestos survey for on-site buildings, if any, was not included in the scope of this assessment.

#### 4.6 Radon

A radon survey was not in the scope of this assessment.

#### 4.7 Polychlorinated Biphenyls (PCBs)

Pole-mounted and pad mounted transformers were observed on the electrical service lines located in the area. These transformers appeared to be in good condition with no evident leaks. The transformers are not located such that they would be expected to affect the proposed lease area. Most power companies report that they no longer utilize transformers containing Polychlorinated Biphenyls (PCBs).

## **5. Regulatory Agency Database Review**

### **5.1 Database Listing**

AES subcontracted with EDR to conduct a search of applicable and accessible federal, state, and local databases within a designated radius of the Site. This database search is designed to determine whether the Site or neighboring sites have a regulatory history of environmental problems that could have an adverse impact on the subject property. The EDR report is included as Appendix C. It contains a listing of the relevant databases researched and a brief explanation of the type of information contained in each database.

### **5.2 On-Site Potential Sources of Contamination**

EDR reported no on-site potential sources of contamination.

### **5.3 Off-Site Potential Sources of Contamination**

EDR reported several mapped and unmapped, off-site potential sources of contamination. The mapped record closest to the Site is for Stadtler Hams, which appears to be a building that is now known as the Francis Health Sciences Building. This property includes a LUST record that was closed out in 1993. This property is separated from the Site by topography and distance such that it would not be expected to affect the proposed tower facility lease.

The remaining mapped records are also separated from the Site by topography and distance such that they would not be expected to affect the proposed tower facility lease.

The unmapped records were reported by EDR with limited and incomplete address information. An examination of both the estimated location and listed status of these records was conducted to determine if they are likely within the ASTM radii of being a potential source of contamination. The street addresses listed for each unmapped record were cross-referenced with the streets that intersect within a one-mile radius of the Site.

Based on this analysis of the limited address information provided and the reported status of each unmapped record, it has been determined that they are not likely to affect the proposed lease. See Appendix C for details on each record listing.

## **6. Summary of Findings and Opinion**

The site inspection of the property and surrounding area and the information provided to AES indicated the following:

- The Site is a proposed 100-foot by 100-foot lease area for the construction of a 199-foot monopole communications tower. The tower facility also has a proposed access and utilities maintenance easement from a private University road.
- The Site is located in a wooded area adjacent to recently constructed baseball fields. The area surrounding the Site consists of additional woodlands, University buildings and apartments, and residential use. The parent property is owned by Elon University.
- Water and sewer service are provided at the parent property by Elon Public Works and Utilities. Duke Energy provides electrical service and AT&T provides landline telecommunication service in the area. Natural gas is provided by Piedmont Natural Gas. Topography at the Site slopes to the west toward a tributary to the Haw River.
- AES contacted Mr. Neil Bromilow, Director of the Elon University Construction Department, to obtain further information about the historical use of the Site and parent property. Mr. Bromilow reported no knowledge of environmental conditions, regulatory actions, or use restrictions for the parent property.
- The surrounding area was found to contain several mapped and unmapped records in the state and federal environmental databases searched per ASTM standards. A location and status assessment of the mapped and unmapped records was conducted and it has been determined that they are not expected to affect the proposed lease.
- This Phase I Environmental Site Assessment was performed in conformance with the scope and limitations of ASTM Practice E 1527 for the subject lease. Any exceptions to, or deletions from, this practice are described in Sections 2.4, 3.5.2 and 3.6. This assessment has revealed no evidence of recognized environmental conditions in connection with the proposed lease.

## **7. Qualifications**

Jon Pruitt has eighteen years of experience in environmental assessment, compliance, and engineering. His master's degree studies in environmental systems engineering were concentrated in physiochemical treatment, waste management and risk assessment. In his professional career he has been involved in a number of industrial and municipal wastewater design projects and has completed numerous NEPA compliance reports and Environmental Assessments. Project experience includes ASTM Standard Phase I and II Environmental Site Assessments, having completed Phase I Assessments for hundreds of properties. These projects have included numerous undeveloped properties proposed for residential subdivisions or industrial business parks, commercial, utility, and industrial properties. He also has experience with industrial and municipal solid waste projects, wetlands delineation, asbestos inspection, construction management, as well as project management in Wireless Telecommunications and Land Development.

### **Education**

---

MS, Environmental Systems Engineering, Clemson University, 1993

BS, Ceramic Engineering, Clemson University, 1990

### **Certifications**

---

Asbestos Consultant/Building Inspector – SC License 23344

40-hour HAZWOPER/Confined Space Training

Lead Based Paint Inspector Training

SCDHEC UST Section – Level II Site Rehabilitation Contractor #300

SC Budget & Control Board Qualified Firm for Environmental Studies

SC and NC Licensed Grading & Utilities Contractor

## **8. Limitations**

The evaluations presented in this Phase I ESA are based exclusively on information provided by Berkley Group, Environmental Data Resources, Inc., the property owner, other publicly available sources, and observations made during the site inspection. No quantitative field activities were conducted; no samples were collected; and AES performed no laboratory analyses. In preparing this report, AES has accepted as true the information provided by the property owner and other publicly available sources. AES warrants that the services performed were conducted in a competent and professional manner in accordance with sound consulting practices and procedures. AES cannot warrant the actual site conditions described in this report beyond matters amenable to visual confirmation within the limits of this site inspection program or beyond the date of our site inspection.

## EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-05) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

### **SURROUNDING SITES: SEARCH RESULTS**

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

### ***State- and tribal - equivalent CERCLIS***

SHWS: The State Hazardous Waste Sites records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. The data come from the Department of Environment & Natural Resources' Inactive Hazardous Sites Program.

A review of the SHWS list, as provided by EDR, and dated 07/08/2011 has revealed that there are 2 SHWS sites within approximately 1 mile of the target property.

### ***State and tribal leaking storage tank lists***

LUST: The Leaking Underground Storage Tank Incidents Management Database contains an inventory of reported leaking underground storage tank incidents. The data come from the Department of Environment, & Natural Resources' Incidents by Address.

A review of the LUST list, as provided by EDR, and dated 05/12/2011 has revealed that there are 2 LUST sites within approximately 0.5 miles of the target property.

## EXECUTIVE SUMMARY

### ***State and tribal registered storage tank lists***

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the Department of Environment & Natural Resources' Petroleum Underground Storage Tank Database.

A review of the UST list, as provided by EDR, and dated 05/12/2011 has revealed that there is 1 UST site within approximately 0.25 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

### **ADDITIONAL ENVIRONMENTAL RECORDS**

#### ***Other Ascertainable Records***

IMD: Incident Management Database.

A review of the IMD list, as provided by EDR, and dated 07/21/2006 has revealed that there are 5 IMD sites within approximately 0.5 miles of the target property.

Environmental Interest/Information System

AFS (Aerometric Information Retrieval System (AIRS) Facility  
Subsystem) replaces the former Compliance Data System (CDS), the  
National Emission Data System (NEDS), and the Storage and Retrieval of  
Aerometric Data (SAROAD). AIRS is the national repository for  
information concerning airborne pollution in the United States. AFS is

**1000333787**

used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

NC-FITS (North Carolina - Facility Identification Template For States) is North Carolina Department of Environment and Natural Resources' (NCDENR) Facility Identification Template for States that provides a common facility identifier in order to improve accessibility to comprehensive information about environmental regulated entities in the state of North Carolina.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

PCS (Permit Compliance System) is a computerized management information system that contains data on National Pollutant Discharge Elimination System (NPDES) permit holding facilities. PCS tracks the permit, compliance, and enforcement status of NPDES facilities.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

## STANDARD ENVIRONMENTAL RECORDS

### *Federal NPL site list*

#### NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 03/31/2011	Source: EPA
Date Data Arrived at EDR: 04/13/2011	Telephone: N/A
Date Made Active in Reports: 06/14/2011	Last EDR Contact: 07/12/2011
Number of Days to Update: 62	Next Scheduled EDR Contact: 10/24/2011
	Data Release Frequency: Quarterly

#### NPL Site Boundaries

##### Sources:

EPA's Environmental Photographic Interpretation Center (EPIC)  
Telephone: 202-564-7333

EPA Region 1 Telephone 617-918-1143	EPA Region 6 Telephone: 214-655-6659
EPA Region 3 Telephone 215-814-5418	EPA Region 7 Telephone: 913-551-7247
EPA Region 4 Telephone 404-562-8033	EPA Region 8 Telephone: 303-312-6774
EPA Region 5 Telephone 312-886-6686	EPA Region 9 Telephone: 415-947-4246
EPA Region 10 Telephone 206-553-8665	

#### Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 03/31/2011	Source: EPA
Date Data Arrived at EDR: 04/13/2011	Telephone: N/A
Date Made Active in Reports: 06/14/2011	Last EDR Contact: 07/12/2011
Number of Days to Update: 62	Next Scheduled EDR Contact: 10/24/2011
	Data Release Frequency: Quarterly

#### NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991	Source: EPA
Date Data Arrived at EDR: 02/02/1994	Telephone: 202-564-4267
Date Made Active in Reports: 03/30/1994	Last EDR Contact: 08/15/2011
Number of Days to Update: 56	Next Scheduled EDR Contact: 11/28/2011
	Data Release Frequency: No Update Planned

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## ***Federal Delisted NPL site list***

### **DELISTED NPL: National Priority List Deletions**

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 03/31/2011	Source: EPA
Date Data Arrived at EDR: 04/13/2011	Telephone: N/A
Date Made Active in Reports: 06/14/2011	Last EDR Contact: 07/12/2011
Number of Days to Update: 62	Next Scheduled EDR Contact: 10/24/2011
	Data Release Frequency: Quarterly

## ***Federal CERCLIS list***

### **CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System**

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 02/25/2011	Source: EPA
Date Data Arrived at EDR: 03/01/2011	Telephone: 703-412-9810
Date Made Active in Reports: 05/02/2011	Last EDR Contact: 09/01/2011
Number of Days to Update: 62	Next Scheduled EDR Contact: 12/12/2011
	Data Release Frequency: Quarterly

### **FEDERAL FACILITY: Federal Facility Site Information listing**

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA's Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 12/10/2010	Source: Environmental Protection Agency
Date Data Arrived at EDR: 01/11/2011	Telephone: 703-603-8704
Date Made Active in Reports: 02/16/2011	Last EDR Contact: 07/15/2011
Number of Days to Update: 36	Next Scheduled EDR Contact: 10/24/2011
	Data Release Frequency: Varies

## ***Federal CERCLIS NFRAP site List***

### **CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned**

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Date of Government Version: 02/25/2011	Source: EPA
Date Data Arrived at EDR: 03/01/2011	Telephone: 703-412-9810
Date Made Active in Reports: 05/02/2011	Last EDR Contact: 09/01/2011
Number of Days to Update: 62	Next Scheduled EDR Contact: 12/12/2011
	Data Release Frequency: Quarterly

## ***Federal RCRA CORRACTS facilities list***

### **CORRACTS: Corrective Action Report**

CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Date of Government Version: 03/09/2011

Last EDR Contact: 08/15/2011  
Next Scheduled EDR Contact: 11/28/2011  
Data Release Frequency: Quarterly

## ***Federal RCRA non-CORRACTS TSD facilities list***

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 06/15/2011  
Date Data Arrived at EDR: 07/07/2011  
Date Made Active in Reports: 08/08/2011  
Number of Days to Update: 32

Last EDR Contact: 07/07/2011  
Next Scheduled EDR Contact: 10/17/2011  
Data Release Frequency: Quarterly

## ***Federal RCRA generators list***

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 06/15/2011  
Date Data Arrived at EDR: 07/07/2011  
Date Made Active in Reports: 08/08/2011  
Number of Days to Update: 32

Source: Environmental Protection Agency  
Telephone: (404) 562-8651  
Last EDR Contact: 07/07/2011  
Next Scheduled EDR Contact: 10/17/2011  
Data Release Frequency: Quarterly

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 06/15/2011  
Date Data Arrived at EDR: 07/07/2011  
Date Made Active in Reports: 08/08/2011  
Number of Days to Update: 32

Source: Environmental Protection Agency  
Telephone: (404) 562-8651  
Last EDR Contact: 07/07/2011  
Next Scheduled EDR Contact: 10/17/2011  
Data Release Frequency: Quarterly

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 06/15/2011  
Date Data Arrived at EDR: 07/07/2011  
Date Made Active in Reports: 08/08/2011

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## ***Federal institutional controls / engineering controls registries***

### **US ENG CONTROLS: Engineering Controls Sites List**

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 03/16/2011	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/25/2011	Telephone: 703-603-0695
Date Made Active in Reports: 06/14/2011	Last EDR Contact: 08/08/2011
Number of Days to Update: 81	Next Scheduled EDR Contact: 09/26/2011
	Data Release Frequency: Varies

### **US INST CONTROL: Sites with Institutional Controls**

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 03/16/2011	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/25/2011	Telephone: 703-603-0695
Date Made Active in Reports: 06/14/2011	Last EDR Contact: 08/08/2011
Number of Days to Update: 81	Next Scheduled EDR Contact: 09/26/2011
	Data Release Frequency: Varies

## ***Federal ERNS list***

### **ERNS: Emergency Response Notification System**

Emergency Response Notification System. ERNS records and stores information on reported releases of oil and hazardous substances.

Date of Government Version: 04/05/2011	Source: National Response Center, United States Coast Guard
Date Data Arrived at EDR: 04/05/2011	Telephone: 202-267-2180
Date Made Active in Reports: 06/14/2011	Last EDR Contact: 07/05/2011
Number of Days to Update: 70	Next Scheduled EDR Contact: 10/17/2011
	Data Release Frequency: Annually

## ***State- and tribal - equivalent NPL***

### **HSDS: Hazardous Substance Disposal Site**

Locations of uncontrolled and unregulated hazardous waste sites. The file includes sites on the National Priority List as well as those on the state priority list.

Date of Government Version: 04/06/2006	Source: North Carolina Center for Geographic Information and Analysis
Date Data Arrived at EDR: 02/28/2007	Telephone: 919-754-6580
Date Made Active in Reports: 04/13/2007	Last EDR Contact: 08/09/2011
Number of Days to Update: 44	Next Scheduled EDR Contact: 11/21/2011
	Data Release Frequency: Biennially

## ***State- and tribal - equivalent CERCLIS***

### **SHWS: Inactive Hazardous Sites Inventory**

State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

Date of Government Version: 07/08/2011	Source: Department of Environment, Health and Natural Resources
Date Data Arrived at EDR: 07/11/2011	Telephone: 919-508-8400
Date Made Active in Reports: 08/17/2011	Last EDR Contact: 06/20/2011
Number of Days to Update: 37	Next Scheduled EDR Contact: 10/03/2011
	Data Release Frequency: Quarterly

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## ***State and tribal landfill and/or solid waste disposal site lists***

### **SWF/LF: List of Solid Waste Facilities**

Solid Waste Facilities/Landfill Sites. SWF/LF type records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. Depending on the state, these may be active or inactive facilities or open dumps that failed to meet RCRA Subtitle D Section 4004 criteria for solid waste landfills or disposal sites.

Date of Government Version: 07/05/2011  
Date Data Arrived at EDR: 07/05/2011  
Date Made Active in Reports: 07/27/2011  
Number of Days to Update: 22

Source: Department of Environment and Natural Resources  
Telephone: 919-733-0692  
Last EDR Contact: 07/05/2011  
Next Scheduled EDR Contact: 10/17/2011  
Data Release Frequency: Semi-Annually

### **OLI: Old Landfill Inventory**

Old landfill inventory location information. (Does not include no further action sites and other agency lead sites).

Date of Government Version: 07/08/2011  
Date Data Arrived at EDR: 07/20/2011  
Date Made Active in Reports: 08/17/2011  
Number of Days to Update: 28

Source: Department of Environment & Natural Resources  
Telephone: 919-733-4996  
Last EDR Contact: 07/12/2011  
Next Scheduled EDR Contact: 10/17/2011  
Data Release Frequency: Varies

## ***State and tribal leaking storage tank lists***

### **LUST: Regional UST Database**

This database contains information obtained from the Regional Offices. It provides a more detailed explanation of current and historic activity for individual sites, as well as what was previously found in the Incident Management Database. Sites in this database with Incident Numbers are considered LUSTs.

Date of Government Version: 05/12/2011  
Date Data Arrived at EDR: 05/18/2011  
Date Made Active in Reports: 06/16/2011  
Number of Days to Update: 29

Source: Department of Environment and Natural Resources  
Telephone: 919-733-1308  
Last EDR Contact: 08/17/2011  
Next Scheduled EDR Contact: 11/28/2011  
Data Release Frequency: Quarterly

### **LUST TRUST: State Trust Fund Database**

This database contains information about claims against the State Trust Funds for reimbursements for expenses incurred while remediating Leaking USTs.

Date of Government Version: 07/15/2011  
Date Data Arrived at EDR: 07/20/2011

## **ADDITIONAL ENVIRONMENTAL RECORDS**

### ***Local Brownfield lists***

#### **US BROWNFIELDS: A Listing of Brownfields Sites**

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes become Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

Date of Government Version: 09/14/2010      Source: Department of Energy  
Date Data Arrived at EDR: 10/21/2010      Telephone: 505-845-0011  
Date Made Active in Reports: 01/28/2011      Last EDR Contact: 08/31/2011  
Number of Days to Update: 99      Next Scheduled EDR Contact: 12/12/2011

Number of Days to Update: 54      Next Scheduled EDR Contact: 12/19/2011  
Data Release Frequency: Semi-Annually

## TRIS: Toxic Chemical Release Inventory System

Toxic Release Inventory System. TRIS identifies facilities which release toxic chemicals to the air, water and land in reportable quantities under SARA Title III Section 313.

Date of Government Version: 12/31/2009      Source: EPA  
Date Data Arrived at EDR: 12/17/2010      Telephone: 202-566-0250  
Date Made Active in Reports: 03/21/2011      Last EDR Contact: 09/01/2011  
Number of Days to Update: 94      Next Scheduled EDR Contact: 12/12/2011  
Data Release Frequency: Annually

## TSCA: Toxic Substances Control Act

Toxic Substances Control Act. TSCA identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site.

Date of Government Version: 12/31/2006      Source: EPA  
Date Data Arrived at EDR: 09/29/2010      Telephone: 202-260-5521  
Date Made Active in Reports: 12/02/2010      Last EDR Contact: 06/30/2011  
Number of Days to Update: 64      Next Scheduled EDR Contact: 10/10/2011  
Data Release Frequency: Every 4 Years

## FTTS: FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)

FTTS tracks administrative cases and pesticide enforcement actions and compliance activities related to FIFRA, TSCA and EPCRA (Emergency Planning and Community Right-to-Know Act). To maintain currency, EDR contacts the Agency on a quarterly basis.

Date of Government Version: 04/09/2009      Source: EPA/Office of Prevention, Pesticides and Toxic Substances  
Date Data Arrived at EDR: 04/16/2009      Telephone: 202-566-1667

Number of Days to Update: 25      Next Scheduled EDR Contact: 12/12/2011  
Data Release Frequency: Quarterly

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/01/2007	Telephone: 202-564-2501
Date Made Active in Reports: 04/10/2007	Last EDR Contact: 12/17/2007
Number of Days to Update: 40	Next Scheduled EDR Contact: 03/17/2008

Number of Days to Update: 40	Next Scheduled EDR Contact: 03/17/2008
	Data Release Frequency: No Update Planned

## SSTS: Section 7 Tracking Systems

Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.

Date of Government Version: 12/31/2009	Source: EPA
Date Data Arrived at EDR: 12/10/2010	Telephone: 202-564-4203

## ICIS: Integrated Compliance Information System

The Integrated Compliance Information System (ICIS) supports the information needs of the national enforcement and compliance program as well as the unique needs of the National Pollutant Discharge Elimination System (NPDES) program.

Date of Government Version: 01/07/2011	Source: Environmental Protection Agency
Date Data Arrived at EDR: 01/21/2011	Telephone: 202-564-5088
Date Made Active in Reports: 03/21/2011	Last EDR Contact: 06/27/2011
Number of Days to Update: 59	Next Scheduled EDR Contact: 10/10/2011
	Data Release Frequency: Quarterly

## PADS: PCB Activity Database System

PCB Activity Database. PADS Identifies generators, transporters, commercial storers and/or brokers and disposers of PCB's who are required to notify the EPA of such activities.

Date of Government Version: 11/01/2010	Source: EPA
Date Data Arrived at EDR: 11/10/2010	Telephone: 202-566-0500
Date Made Active in Reports: 02/16/2011	Last EDR Contact: 07/22/2011
Number of Days to Update: 98	Next Scheduled EDR Contact: 10/31/2011
	Data Release Frequency: Annually

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## MLTS: Material Licensing Tracking System

MLTS is maintained by the Nuclear Regulatory Commission and contains a list of approximately 8,100 sites which possess or use radioactive materials and which are subject to NRC licensing requirements. To maintain currency, EDR contacts the Agency on a quarterly basis.

Date of Government Version: 03/18/2010	Source: Nuclear Regulatory Commission
Date Data Arrived at EDR: 04/06/2010	Telephone: 301-415-7169
Date Made Active in Reports: 05/27/2010	Last EDR Contact: 06/13/2011
Number of Days to Update: 51	Next Scheduled EDR Contact: 09/26/2011
	Data Release Frequency: Quarterly

## RADINFO: Radiation Information Database

The Radiation Information Database (RADINFO) contains information about facilities that are regulated by U.S. Environmental Protection Agency (EPA) regulations for radiation and radioactivity.

Date of Government Version: 01/11/2011	Source: Environmental Protection Agency
Date Data Arrived at EDR: 01/13/2011	Telephone: 202-343-9775
Date Made Active in Reports: 02/16/2011	Last EDR Contact: 07/12/2011
Number of Days to Update: 34	Next Scheduled EDR Contact: 10/24/2011
	Data Release Frequency: Quarterly

## FINDS: Facility Index System/Facility Registry System

Facility Index System. FINDS contains both facility information and 'pointers' to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).

Date of Government Version: 04/14/2010	Source: EPA
Date Data Arrived at EDR: 04/16/2010	Telephone: (404) 562-9900
Date Made Active in Reports: 05/27/2010	Last EDR Contact: 06/14/2011
Number of Days to Update: 41	Next Scheduled EDR Contact: 09/26/2011
	Data Release Frequency: Quarterly

## RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995	Source: EPA
Date Data Arrived at EDR: 07/03/1995	Telephone: 202-564-4104
Date Made Active in Reports: 08/07/1995	Last EDR Contact: 06/02/2008
Number of Days to Update: 35	Next Scheduled EDR Contact: 09/01/2008
	Data Release Frequency: No Update Planned

## BRS: Biennial Reporting System

The Biennial Reporting System is a national system administered by the EPA that collects data on the generation and management of hazardous waste. BRS captures detailed data from two groups: Large Quantity Generators (LQG) and Treatment, Storage, and Disposal Facilities.

Date of Government Version: 12/31/2009	Source: EPA/NTIS
Date Data Arrived at EDR: 03/01/2011	Telephone: 800-424-9346
Date Made Active in Reports: 05/02/2011	Last EDR Contact: 09/01/2011
Number of Days to Update: 62	Next Scheduled EDR Contact: 12/12/2011
	Data Release Frequency: Biennially

Data Release Frequency: Varies

## EDR PROPRIETARY RECORDS

### *EDR Proprietary Records*

#### Manufactured Gas Plants: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

## OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

## CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 12/31/2007  
Date Data Arrived at EDR: 08/26/2009

## Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.
